(54) ABSORBENT AND ABSORPTIVE STRUCTURE USING THE SAME

(57)Abstract:

PROBLEM TO BE SOLVED: To provide an absorbent which remains hardly colorable for a long period.

SOLUTION: This absorbent comprises a water absorptive resin (A), a reducing compound (B) and at least one acid (salt) (C) selected from the group consisting of an organic acid (C1) having a melting point below 30° C, an inorganic acid (C2) having solubility of ≥ 10 wt.% in water of 50° C or an inorganic acid (C3) and their salts (C4) as essential components.

LEGAL STATUS

[Date of request for examination] 10.06.2002

[Date of sending the examiner's decision of rejection] 15.03.2005

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
